## NYC Dog Licenses

Created 9/19/2017

Last Updated 5/25/2022

DOHMH/Environmental Health

### What's In This Dataset?

*This data provides information, on dog licenses in NYC, breed and license issue and expiration dates in a given calendar year, e.g. 2017 Dogs with Active Licenses data set contains active dog licenses in calendar year 2017.*

### Who Manages This Data?

*As per NYC Health Code §161.04 Dog licenses, all dogs in New York City must have licenses, and the licenses must be attached to their collars while in public. Licenses are valid for one to five years, depending on the age and spayed/neutered status of the dog. Age plays a role only if a dog is under four months old. In this case, the license can only be purchased for one year. After four months of age, a license can be purchased from one to five years based on what the owner chooses to buy. The dog's age is not a factor. Spay/neuter status only affects the cost of the license, not the duration.*

### Get Started With This Data:

*How many Chihuahuas are in zip code 10022?*

*What is the most popular dog name?*

*What is the most common breed in Queens?*

### Columns (Fields, Attributes):

<u>Column Name</u>	<u>Column Description</u>
<u>AnimalName</u>	<u>User-provided dog name (unless specified otherwise)</u>
<u>AnimalGender</u>	<u>M (Male) or F (Female) dog gender</u>
<u>AnimalYearOfBirth</u>	<u>Year dog was born</u>
<u>BreedName</u>	<u>Dog breed</u>
<u>ZipCode</u>	<u>Owner zip code</u>
<u>LicenseIssuedDate</u>	<u>Date the dog license was issued</u>
<u>LicenseExpiredDate</u>	<u>Date the dog license expires</u>
<u>Extract Year</u>	<u>Year the data was extracted</u>
